

Why choose Swarfega sealed cartridge systems?

- More hygienic
- No mess
- No wastage
- Cost control
- Convenience
- Security
- Easy to use
- Colour coded

Benefits

- Reduces risk of cross-contamination
- Fresh product is dispensed every time
- No drips or clogging of pumps which can cause mess on walls and floors and can be a health & safety risk
- Minimal maintenance required
- Cartridges are designed to collapse in use so that all of the product is evacuated
- A sealed dispensing system delivers a precise measured dose so that only the correct amount of product is dispensed for optimum cost in use
- Wall mounted units can be conveniently located
- In addition, lockable dispenser cabinets stop unauthorised access, thus preventing deliberate product contamination or theft of the product inside
- Large, 'easy-push' buttons

Swarfega Sealed Cartridge Systems

- 1, 2 and 4 litre sizes available
- For use with Swarfega's range of:
 - pre-work cream
 - cleansers
 - after-work cream
